CONDITIONS OF SALE

1. All bids are to be entered by LOT as numbered in this catalog.
2. Coins will be bought for as much below your bids as possible.
3. No commission, service charge or other extras will be made for executing your bids. Only the actual cost of Mailing and Insurance will be added to your bill.
4. The lots will be on exhibition at the store of the Cataloger for 3 days prior to the day of sale.
5. The valuations placed after each lot are taken from the 1947 editions of the Standard Catalogue of U. S. Coins and the Standard Paper Money Catalogue. Where a definite valuation for the condition quoted has not been given in the catalogue, the quotation has been averaged. A plus sign indicates a particularly fine specimen worth more than the catalogue value.
6. The authenticity of the coins is guaranteed by the Cataloger but all claims must be made within 5 days.
7. All bidders unknown to us, who have not established credit, must either send references one week before the sale or send a deposit of 25% of their bids. Bids will not be executed unless this is followed.
8. Accounts must be paid for promptly when bills are rendered. Remit by check or money order. Stamps will only be accepted for accounts below one dollar.

END OF SALE — THANK YOU

I wish to take this opportunity to thank my friends, collectors and dealers alike, for their best wishes and kind words for this, my fifth sale. It has been a lot of work in getting it out, coming as it did while Sale No. 4 was still in progress. Nevertheless, I am now laying the groundwork for my next sale and to that end am seeking one or two worthwhile collections. Why not write me for particulars? A prompt reply is assured.

COINS OF THE WORLD

Twentieth Century Issues

Second Edition

A compilation of numismatic knowledge gathered over a long period of years, the original publication of which (in 1938) gave collectors their first authoritative reference work on modern coins. Outstanding authorities, collectors and dealers have contributed their knowledge to the production of this book, making it as complete and correct as possible.

Approximately 4,000 coins are listed and described, with the values given. Nearly 1,500 half-tone illustrations show the types of all issues. "Coins of the World" is the standard reference book on modern world coinage.
